

Fee Schedule - Conversion of Fees

Updated 4 June 2024

The Planning Regulation 2017 and Regional Planning Interests Regulation 2014 prescribes fees and charges for matters such as development applications and tribunal fees.

In June 2022, the Planning Regulation 2017 was amended to enable certain fees and charges to be expressed as fee units rather than a dollar value, in accordance with the fee unit model under the *Acts Interpretation Act 1954* (AIA) and Queensland Treasury's Principles for Fees and Charges Policy (PFCP).

For ease of use, the following tables convert the prescribed fees and charges to dollar amounts for the relevant financial year. However, the below tables should be read in conjunction with the relevant legislation.

To support the cost of living, the Queensland Government has decided to set the Government Indexation Rate (GIR) to zero percent for fees and charges raised by Government in the 2024-2025 financial year.

On 11 December 2023, the Planning Regulation 2017 was amended to give effect to new or emerging policy positions in SEQ Regional Plan (ShapingSEQ) 2023 update. The SEQ regulatory provisions aim to ensure that land use planning and development in the region align with the goals and strategies of ShapingSEQ. This includes:

- changes to the heading of Part 15 to include 'SEQ major enterprise and industrial areas'
- amended references within Part 15 to reflect changes to section numbering
- introduction of a new referral trigger 'Part 16B SEQ northern inter-urban break' and associated fee.

This document is updated to reflect the above amendments to the Planning Regulation 2017 and is otherwise updated each financial year to reflect annual indexation rates.

- Table 4 – Required fee for particular change and extension applications, Schedule 15 16
- Table 5 – Tribunal fees, Schedule 17 16

Prescribed amounts under Schedule 16 of the Planning Regulation 2017 continue to be expressed as dollar figures, in accordance with the PFCP.

Section 112 of the *Planning Act 2016* provides that the prescribed amounts are indexed against the producer price index (PPI) for construction published by the Australian Bureau of Statistics. For 2024-2025, the indexation rate is zero percent.
